

Minimum Computer Requirements for Methodist's Clinician Portal Installation:

- Operating System Software:
Microsoft Windows XP and Vista/7 32 bit are supported
Windows Vista/7 64 bit software is not supported at this time
Internet Explorer web browser versions 6 SP 2 and version 7 are the only fully supported Internet browsers; IE 8 is partially supported [not yet compatible with PACS].
Sun Java JRE version 1.6 or later.
- For minimum hCare Clinician Portal / HPF functionality:
1 GHz CPU processor speed
1 Gigabyte of RAM
15" Monitor capable of 1024 X768 pixel resolution
- Suggested hardware for enhanced hCare Clinician Portal / HPF functionality
(Radiology PACS, OB Link Fetal Monitoring):
2.8 GHz CPU processor speed
2 Gigabyte or more of RAM
17" Monitor or larger
- Macintosh users may gain access to the Portal using Parallels, Boot Camp or VM Ware using Microsoft Windows 2000 or above.
- Linux is not supported.
